

For safe and weathertight roof glazing, choose Lonsdale – the trusted name in the industry!

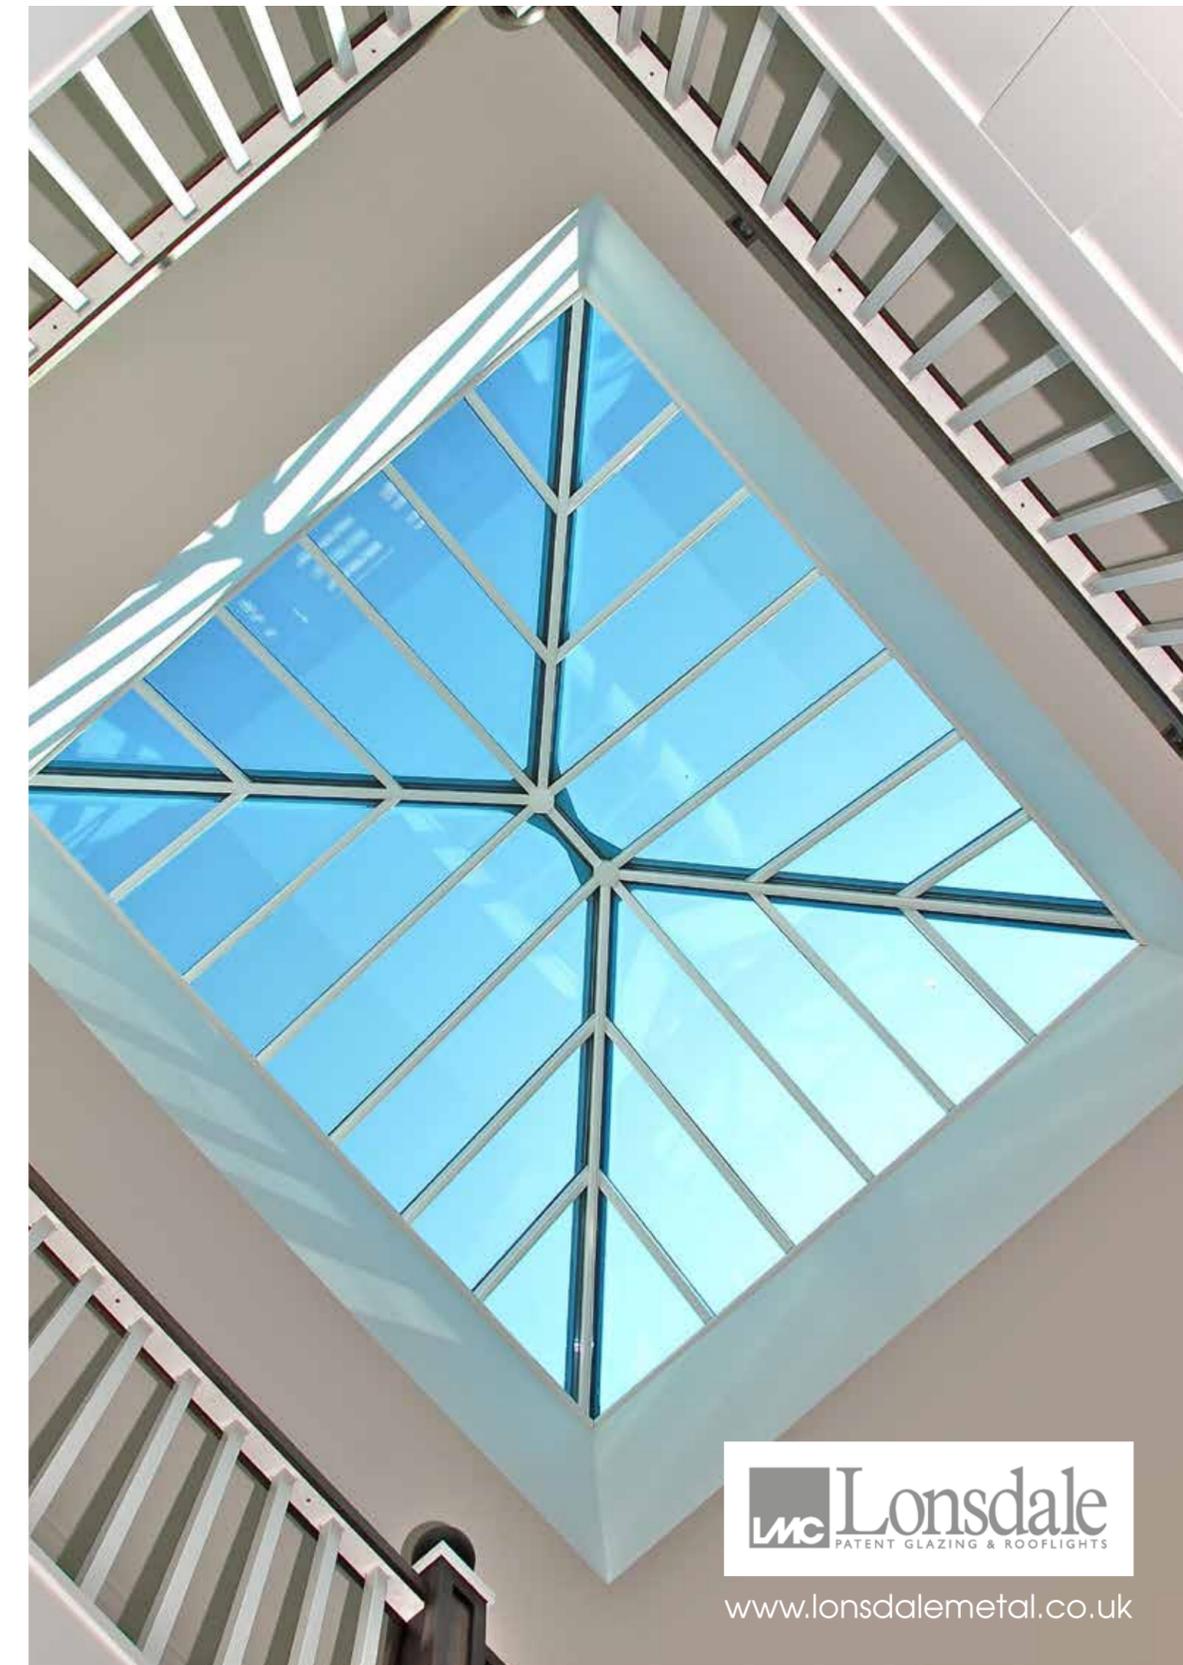

We have been supplying glazing systems since 1946 and whilst the industry and technology may have moved on, our ethos will always remain the same – to offer well designed, easy to install products that strike the perfect balance between performance, durability and value for money.

Paying attention to our customers' needs, we have developed a wide range taking into account design life, operational requirements and robust installation details to ensure systems do not leak. Increasing regulation brings new challenges for designers who can depend upon our first class technical guidance and library of CAD details.

Seventy years in the business means there are not many testing situations we have not overcome with a bespoke solution, so take advantage of our experience!

Reliability and performance over time are vital, so we offer a standard 10 year warranty. Longer periods up to 25 years can be considered for specific projects to give clients the peace of mind our products will perform year after year with minimum maintenance.

Lonsdale rooflights feature on some of the most prestigious and historic buildings in the country – including 10 Downing Street, Buckingham Palace, St Pancras Station and the National Gallery. With a range of systems chosen by architects for projects like these, we continue to set the standard for overhead glazing in the UK.

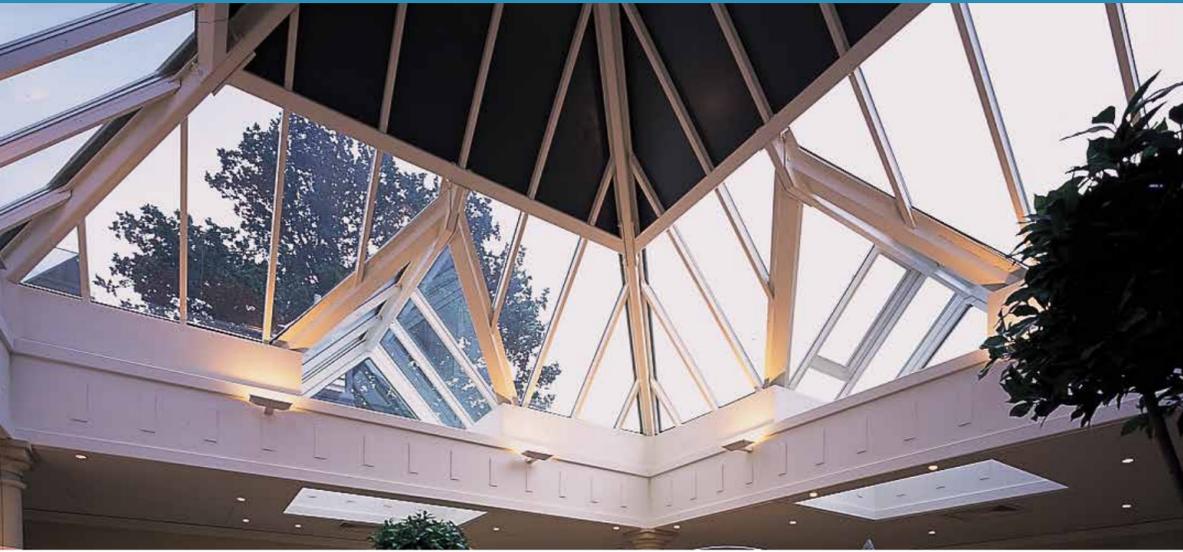

designed **for you.**

Technically superior

We are fully committed to delivering excellence at every stage of the process from initial design to project completion. To ensure the correct rooflight system is installed on your project, we offer full technical support and product guidance at www.lonsdalemetal.co.uk

"Your products have stood the test of time and lots and lots of rain!"

Mr Sat Jandu, Architect, The British Museum

"Various challenges have been dealt with to deliver this spectacular achievement."

Simon Matthews, Kier, Kings Cross Station

Our rooflights feature on some of UK's most prestigious, famous and iconic buildings.

Superior roof glazing

We understand the importance of product performance, so we offer a comprehensive warranty for rooflights and patent glazing.

By looking at the needs of the customer, we have developed a range of systems that take into account design life, operational requirements and ease of installation.

designed to stand the **test of time...**

"When it came to my own roof glazing project, Lonsdale proved to be the perfect choice."

Sir Terry Farrell, Terry Farrell and Partners
